

Here is a comprehensive executive summary of the Tata Motors Business Responsibility & Sustainability Report (BRSR) for FY 2024-25.

Executive Summary: Tata Motors BRSR FY 2024-25

Company Overview & Reporting Boundary

- * Entities Covered: The report consolidates data for Tata Motors Limited (TML), Tata Motors Passenger Vehicles Limited (TMPVL), and Tata Passenger Electric Mobility Limited (TPEML).

- * Financial Scope: The combined turnover for these entities in FY 2024-25 was ₹1,31,421 crore.

- * Materiality: For the first time, Tata Motors adopted a "double materiality assessment" to evaluate ESG issues that are financially important to the business and socially impactful to stakeholders.

Environmental Performance (Principle 6)

- * Climate & Emissions Goals: Tata Motors is committed to achieving Net Zero Greenhouse Gas (GHG) emissions by 2045 for the Commercial Vehicle business and by 2040 for the Passenger Vehicle business.

- * Renewable Energy: The company is a signatory to Climate Group RE100, aiming for 100% renewable electricity in its operations by 2030. The combined entities consumed 6,97,039 GJ of energy from renewable sources in FY 2024-25.

- * GHG Footprint: For the combined entities, Total Scope 1 emissions were 70,746 metric tonnes of CO₂ equivalent, Scope 2 emissions were 2,14,289 metric tonnes of CO₂, and Scope 3 emissions totaled 162,302,158 metric tonnes of CO₂.

- * Water Management: The company aims to achieve a 'Water Positive' status by 2030. Several manufacturing plants are currently certified as "Water Positive" and operate as Zero Liquid Discharge facilities.

- * Waste & Circularity: Tata Motors is committed to achieving "Zero Waste to Landfill" by 2030 across operations. To handle end-of-life vehicles, the company has expanded its "Re.Wi.Re. - Recycle with Respect" franchise facilities to safely dismantle and recycle aged vehicles.

Social Performance & Workforce (Principle 3, 5 & 8)

- * Workforce Demographics: The combined workforce consists of 12,956 employees and 45,486 workers.

- * Diversity, Equity & Inclusion (DEI): The company has set a goal to have 10% women in leadership roles by 2026. Tata Motors is also implementing hiring pilots for the LGBTQ+ community and differently-abled candidates.

- * Employee Well-Being: 100% of permanent employees are covered by health insurance, accident insurance, and maternity/paternity benefits.

- * Occupational Health & Safety: The company adheres to an ISO 45001-aligned safety management system and reported a combined 67 total recordable work-related injuries for employees and 25 for workers, with 1 worker fatality in FY25.

- * Human Rights: The company ensures strict compliance against child labor and forced labor, and 22 POSH (Prevention of Sexual Harassment) complaints were filed during the year.

- * Community & CSR: CSR initiatives reached 14,88,301 beneficiaries, with 100% belonging to vulnerable and marginalized groups.

Governance & Business Ethics (Principle 1 & 7)

- * Ethical Framework: Governance is guided by the Tata Code of Conduct and strict Anti-Bribery and Anti-Corruption policies.

- * Grievance Mechanisms: The company provides a Whistleblower Policy and an Ethics Helpline (available in multiple languages) for anonymous reporting of violations.

- * Compliance: No fines or penalties were imposed by regulators regarding corruption or conflicts of interest during the financial year.

Product Innovation & Supply Chain (Principle 2 & 9)

- * Sustainable Sourcing: Tata Motors enforces a Supplier Code of Conduct and evaluates suppliers on ESG parameters.

- * R&D Investments: TML dedicated 61% of its total R&D expenditure to technologies that improve the environmental and social impacts of its products.

- * Data Privacy: Cyber security is governed by the Risk Management Committee, and the company adheres to ISO-27001 standards to protect customer data. No data breaches involving customer information were reported in FY 2024-25.

Would you like me to expand on any specific section of this report, such as their specific decarbonization strategies or their employee wellness programs?

This document is Tata Motors' Business Responsibility and Sustainability Report for FY 2024-25, detailing its corporate information, operations, products, markets, and employee data.

Overview of Tata Motors' Business Responsibility and Sustainability

Tata Motors' BRSR covers its corporate disclosures, product offerings, operational footprint, employee demographics, stakeholder engagement, material sustainability issues, and governance practices, emphasizing its commitment to DEI, environmental responsibility, and ethical conduct.

Corporate Identity and Reporting Framework

Tata Motors is a publicly listed Indian automotive company incorporated in 1945, with a CIN of L28920MH1945PLC004520, headquartered in Mumbai, reporting for FY 2024-25 under SEBI's BRSR framework, assured by KPMG on select indicators.

- The company's paid-up capital is ₹736 crore.
- It operates across 44 domestic and 3 international locations, with 125 international markets.
- The report excludes non-manufacturing locations and joint operations of Tata Cummins.
- Contact for queries: Mr. Jyotindran Sastabhavan Kutty, CSO, +91 20 6613 2781, kutty@tatamotors.com.

Business Activities and Product Portfolio

Tata Motors primarily manufactures automobiles, contributing 98-99% of turnover across its entities, with key products including vehicles (84-85%) and spare parts (11-8%), sold domestically and exported (5% of TML's turnover, 0% for TMPVL/TPEML).

Operational Footprint and Market Reach

The company has 73 total locations, including 10 plants and 63 offices domestically, with 3 international offices. It serves the Indian market across all states and exports to 125 countries.

Employment Demographics and Workforce Diversity

As of FY 2024-25, Tata Motors employs 12,956 employees and 45,486 workers across all entities, with a gender ratio of approximately 90% male and 10% female. It has a significant focus on inclusivity, with 10 permanent differently-abled employees and 138 differently-abled workers, and initiatives to increase women's representation, including 33-40% women on boards and 50% in key management for TMPVL and TPEML.

Employee Turnover and Labour Practices

Turnover rates for permanent employees are around 6.8-7.9%, and for workers approximately 1.1-0.4%, with a focus on improving labour practices, training, and safety. The company emphasizes health, safety, and fair labour practices aligned with the Rights of Persons with Disabilities Act, 2016.

Stakeholder Grievance Redressal

Tata Motors maintains mechanisms for stakeholder grievances, including community feedback, investor dispute resolution, employee and worker forums, and customer feedback channels, with most FY 2024 complaints resolved by FY 2025.

Material Sustainability and Business Risks

The company has adopted a double materiality approach, identifying key issues such as climate change, energy, circular economy, biodiversity, pollution, water use, and social risks, with strategies to mitigate risks and leverage opportunities.

- Climate change mitigation is both a risk and opportunity, with targets for Net Zero GHG emissions by 2040-45 and commitments to RE100.
- Energy management involves transitioning to renewable sources, with long-term benefits outweighing short-term costs.
- Circular economy initiatives aim to reduce resource use, waste, and dependence on finite materials, creating new revenue streams.
- Climate adaptation and biodiversity conservation are prioritized, with investments in wetlands and Nature-Based Solutions.
- Regulatory compliance on air pollution and water management is critical, with investments in R&D and infrastructure.
- Risks related to human rights, responsible investment, and supply chain sustainability are actively managed to prevent reputational and operational impacts.

Corporate Governance and Ethical Conduct

Tata Motors emphasizes ethical business conduct, with policies and systems to prevent corruption, bribery, and unethical practices, including audits, training, and whistleblower mechanisms, to mitigate legal and reputational risks.

Social Responsibility and CSR Initiatives

CSR activities are significant, with FY 2024-25 turnover of ₹68,023 crore (TML) and ₹63,398 crore (TMPVL/TPEML), and net worth of ₹32,041 crore and ₹13,611 crore respectively. The combined CSR expenditure aligns with applicable regulations, focusing on community development and sustainability.

Transparency, Disclosures, and Grievance Management

The company adheres to transparency standards, with grievance mechanisms for communities, investors, employees, customers, and value chain partners, addressing complaints related to principles of responsible business conduct, with most issues resolved within FY 2025.

Management and Process Disclosures Overview

The document details Tata Motors' policies, commitments, and performance related to business responsibility, sustainability, governance, and employee well-being, aligned with national and international standards.

Policy Coverage and Management Processes

Tata Motors has comprehensive policies covering core principles of the NGRBCs, with most policies approved by the Board and available on the company website. All policies are translated into procedures and extend to value chain partners. The company follows a systematic review process involving multiple committees and external assessments like TBEM. Key policies include anti-bribery, environmental, privacy, CSR, and related-party transaction policies, with specific commitments such as achieving Net Zero Emissions by 2045 and 100% renewable electricity by 2030.

Business Responsibility & Sustainability Policy Implementation

Policies are approved by the Board, accessible via specified web links, and translated into actionable procedures. The policies extend to value chain partners and are mapped to international standards like ISO 14001, ISO 45001, and IATF 16949. Tata Motors commits to targets such as water neutrality by 2030, zero waste to landfill by 2030, and responsible biodiversity conservation, with performance reviewed periodically.

Performance Against Sustainability Goals

The company reports progress on renewable energy share increasing from 30% to 45% (FY 24-25), certification of manufacturing plants for water positivity and zero waste, biodiversity projects, and biodiversity assessments. It

has joined science-based targets initiatives and set internal decarbonization goals aligned with global climate commitments.

Governance and Oversight of Sustainability

Tata Motors has dedicated committees like SHS, CSR, SRC, and RM overseeing ESG performance, with regular reviews at multiple levels. The company maintains a whistleblower mechanism and complies with statutory requirements. External assessments, including TBEM, evaluate policy implementation.

External Evaluation and Policy Effectiveness

Internal audits and external assessments verify policy implementation, with ongoing verification of LCA studies for key products like Nexon BS6 and EV models. The company addresses environmental and social risks identified through LCAs, such as carbon footprint and resource depletion, and takes actions to reduce impacts.

Sustainable Sourcing and End-of-Life Management

Tata Motors has a Supplier Code of Conduct and Environmental Procurement Policy, with 68-77% of suppliers certified to ISO standards. It promotes responsible product design for recyclability, with vehicles designed for at least 90% recyclability, and operates Re.Wi.Re facilities for end-of-life vehicle recycling. The company complies with EPR regulations, procuring recycling credits and managing plastic waste and other hazardous wastes responsibly.

Product Life Cycle and Environmental Impact

TML is conducting LCAs for various vehicle models, with some externally verified, to assess cradle-to-grave impacts. It has identified risks like carbon footprint and resource depletion, and is working on decarbonization and circularity targets. Reclaimed plastics and packaging are fully recycled or reused, with specific quantities reported for FY 24-25.

Employee Well-being and Inclusion

Tata Motors provides comprehensive health benefits, with 100% coverage for PF, gratuity, and ESI. It promotes diversity and inclusion, with initiatives for PWD accessibility, equal opportunity policies, and grievance mechanisms. Training programs cover 62-100% of employees, and parental return and retention rates are high, with 97-100% for various categories.

Workplace Accessibility and Grievance Redressal

The company is conducting audits and civil works to improve PWD accessibility, with ongoing initiatives for inclusive environments. Grievance mechanisms are in place for employees and workers, including helplines, committees, and whistleblower policies, ensuring confidentiality and protection against retaliation.

Employee and Worker Membership in Unions

The report details Tata Motors' employee and worker union memberships for FY 24 and FY 25.

- Total permanent employees: FY 25: 8,616; FY 24: 8,931.
- Male employees: FY 25: 7,838; FY 24: 8,200.
- Female employees: FY 25: 778; FY 24: 731.
- Total permanent workers: FY 25: 12,203; FY 24: 11,645.
- Male workers: FY 25: 11,864; FY 24: 11,416.
- Female workers: FY 25: 339; FY 24: 229.
- No union membership data for FY 24; FY 25 shows 99 female workers in unions.

Training and Development Initiatives

Tata Motors provides extensive training to employees and workers, focusing on safety, skills, and leadership.

- Employees trained: FY 25: 8,727; FY 24: 8,668.
- Workers trained: FY 25: 28,257; FY 24: 16,084.
- Male employee training: FY 25: 7,901; FY 24: 4,462.
- Female employee training: FY 25: 826; FY 24: 298.
- Male worker training: FY 25: 25,136; FY 24: 14,487.
- Female worker training: FY 25: 3,121; FY 24: 1,597.
- Total training: FY 25: 36,984; FY 24: 24,752.

Safety and Health Management Systems

Tata Motors has a comprehensive occupational health and safety system aligned with ISO 45001, with Board oversight.

- Safety governance led by SHS Committee, with multiple safety committees.
- 1,203 Critical to Safety (CTS) stations focus on hazard elimination.
- Safety standards audited monthly and annually, with 100% assessment of health, safety, and working conditions.
- All sites except Sanand 2 are ISO 45001 certified.
- Safety initiatives include AI analytics, PPE monitoring, safety Kaizen projects, and behavior-based safety programs.
- Focus areas for FY25: equipment maintenance, vehicle operations, utilities, housekeeping, and installations.

Safety Incidents and Injury Rates

Tata Motors reports a significant reduction in safety incidents and injury rates.

- FY 25 LTIFR: Employees: 0.12; Workers: 0.18; FY 24: Employees: 0.27; Workers: 0.16.
- Total recordable injuries: FY 25: 54 employees, 17 workers; FY 24: 79 employees, 21 workers.
- Fatalities: FY 25: None; FY 24: 1 employee, 1 worker.
- LTIFR for employees: FY 25: 0.09; FY 24: 0.14.
- Injury rate for workers: FY 25: 0.18; FY 24: 0.08.
- One employee injury was retracted post-investigation.

Workplace Safety and Risk Mitigation

Tata Motors emphasizes proactive hazard identification and risk assessment.

- Bi-annual Hazard Identification & Risk Assessment (HIRA) with digital recording.
- Layered safety audits and safety observations, including Toolbox Talks and BBS.
- Non-routine hazards addressed via Job Safety Analysis (JSA), Permit-to-Work (PTW), and advanced assessments like HAZOP.
- Emergency drills and incident investigations using Root Cause Analysis.
- AI platforms like Legatrix support real-time risk prediction.

Worker Reporting and Self-Protection Processes

Robust mechanisms enable workers to report hazards and remove themselves from risks.

- Digital Safety Reporting Platform (Safety Portal).
- Safety Observation (SO) process and Action Employee Can Take (AECT) program.
- Whistleblower and open-door policies for anonymous reporting.
- Stop Work Authority (SWA) for immediate hazard response.
- Escalation procedures and joint safety committees.

- Continuous safety training and toolbox talks.

Employee and Worker Health & Medical Services Access

Tata Motors ensures access to non-occupational health and medical services.

- Employee health programs include annual screenings, fitness, and lifestyle initiatives.
- Occupational Health Centres (OHCs) provide on-site medical aid.
- Employee Assistance Programs (EAPs) support mental health.
- Focus on holistic well-being and stress management.

Safety Incident Data and Improvements

Tata Motors reports a decline in safety incidents and fatalities.

- FY 25: LTIFR for employees: 0.11; injuries: 67; fatalities: none.
- FY 24: LTIFR for employees: 0.23; injuries: 102; fatalities: 1.
- For workers, FY 25: LTIFR: 0.18; injuries: 25; fatalities: 1 (retracted case).
- Continuous safety improvements driven by audits, governance, and digital tools.

Safety and Well-being Measures

The company adopts a multi-layered safety approach including governance, risk controls, safety audits, and digital interventions.

- 1,203 CTS stations for hazard control.
- SDCA cycles for sustaining safety measures.
- Safety Kaizen projects and BBS programs.
- Contractor safety management with risk categorization and star rating system.
- Focus on high-risk activities like equipment maintenance, vehicle movement, utilities, and installations.

Stakeholder Engagement and Grievance Redressal

Tata Motors maintains regular engagement with stakeholders including communities, suppliers, regulators, and employees.

- Community engagement through awareness programs, disaster relief, and local development.
- Supplier assessments and safety compliance monitoring.
- Formal channels for grievances, including ethics helpline and whistleblower mechanisms.
- Stakeholder feedback influences policies and safety practices.

Human Rights and Employee Welfare

The company promotes human rights through policies, training, and grievance mechanisms.

- Training on human rights for employees and workers.
- Grievance redressal via ethics helpline and whistleblower policy.
- Focus on vulnerable groups, including marginalized communities and bonded workers.
- Compensation and insurance benefits provided, including life insurance and medical support.
- Rehabilitation of affected workers and their families.
- Addressing social issues like child labor, forced labor, and discrimination, with no reported complaints in FY 25.

Remuneration and Wages

Tata Motors reports detailed data on wages and remuneration.

- Median wages for employees: FY 25: Male: 17.07; Female: 12.48.
- Board remuneration: FY 25: Male directors: 6; Female directors: 125.4; Key Managerial Personnel: FY 25: Male: 867.56; Female: Not specified.
- Wages paid to females as percentage of total wages: FY 24: 5.20%; FY 23: 4.6%.
- Wages for workers and employees are aligned with minimum wages, with detailed figures provided for FY 24 and FY 25.

Overall Stakeholder and Governance Engagement

Tata Motors emphasizes continuous dialogue with stakeholders through various committees and forums.

- Engagement channels include meetings, surveys, community programs, and digital platforms.
- Materiality assessments guide focus on key ESG issues.
- Stakeholder feedback influences policies on safety, environment, and social responsibility.
- Formal mechanisms ensure transparency, accountability, and responsiveness to stakeholder concerns.

Overview of Corporate Social Responsibility and Sustainability

The document provides a comprehensive overview of Tata Motors' initiatives, performance metrics, and policies related to workplace safety, human rights, environmental impact, and sustainability for FY 2024-25.

POSH Complaints and Workplace Harassment Data

Tata Motors reports on sexual harassment complaints under POSH Act for FY 24 and FY 25.

- FY 25: 1 complaint; FY 24: 4 complaints.
- Complaints as a percentage of female employees: 0.04% in FY 25; 0.17% in FY 24 (restated per SEBI guidelines).
- POSH complaints upheld: 0 in FY 25; 3 in FY 24.
- Significant increase in total POSH complaints reported: 22 in FY 25 vs. 15 in FY 24 across TML, TMPVL, and TPEML.
- Complaints on POSH as a percentage of female workers: 0.34% in FY 25; 0.26% in FY 24.

Mechanisms for Protecting Whistleblowers and Harassment Victims

Tata Motors has policies to prevent retaliation and protect complainants.

- Whistleblower Policy: Confidentiality maintained; protection against retaliation such as termination, suspension, or demotion.
- POSH Policy: Protects complainants and accused from retaliation if charges are valid or innocent.
- Tata Code of Conduct: Zero tolerance for retaliation; disciplinary actions for targeting individuals.

Human Rights in Business Agreements

Human rights clauses are integrated into business contracts.

- Compliance with Tata Code of Conduct included in agreements.
- Specific clauses on human rights in Supplier and Dealer Codes of Conduct.

Human Rights and Impact Assessments

Regular assessments ensure compliance with human rights standards.

- 100% assessment of plants and offices for child labor, forced labor, sexual harassment, discrimination, and wages.
- No significant risks identified in FY 2024-25.

- Human rights due diligence includes policies against child and forced labor, sexual harassment, and non-discrimination.

Accessibility for Differently Abled Persons

Tata Motors promotes inclusive premises.

- Accessibility audits planned for locations with challenges.
- Measures include physical modifications, technological aids, employee training, and partnerships with disability organizations.
- Commitment to DEI and legal compliance under RPWD Act, 2016.

Energy Consumption and Intensity

Energy data shows increased renewable energy use and efficiency improvements.

- FY 25: Total renewable energy consumption: 76.5 GJ (TML, TMPVL, TPEML combined).
- FY 24: Renewable energy: 55.5 GJ; non-renewable energy: 29.4 million GJ.
- Total energy consumption: FY 25: 17.87 million GJ; FY 24: 19.20 million GJ.
- Energy intensity per vehicle: 4.72 GJ in FY 25; 4.80 GJ in FY 24.
- External assurance by KPMG on data reported.

Water Usage and Management

Water withdrawal and consumption are monitored across plants.

- FY 25: Water withdrawal: 28.47 million kl; consumption: 26.61 million kl.
- Water intensity: 0.00000391 kl/₹ (FY 25); 0.00000415 in FY 24.
- Water discharge: 1.85 lakh kl in FY 25, with 100% treatment.
- Water discharge to surface water with treatment: 185,565 kl (TDS 478 mg/L).
- No operations in water-stressed areas except Jamshedpur (over-exploited).
- External assurance by KPMG.

Water Discharge and Recycling Practices

Water discharge details include destination and treatment level.

- FY 25: 185,565 kl discharged to surface water with treatment.
- Efforts include recycling treated effluents, rainwater harvesting, and zero liquid discharge initiatives.
- Plants follow consent orders for effluent management.
- Additional measures to reduce freshwater use by increasing treated effluent reuse.

Air Emissions Data

Air emissions include NOx, SOx, and particulate matter.

- FY 25: NOx: 260 MT; SOx: 0.25 MT; PM: 820 MT.
- FY 24: NOx: 208 MT; SOx: 0.28 MT; PM: 1008 MT.
- Emissions restated due to methodology changes.
- External assurance by KPMG.

Greenhouse Gas Emissions and Intensity

Scope 1 and Scope 2 emissions are reported with reductions and restatements.

- FY 25: Scope 1: 43,754 tCO₂; Scope 2: 131,407 tCO₂.

- FY 24: Scope 1: 48,736 tCO₂; Scope 2: 172,409 tCO₂.
- Emission intensity per vehicle: 0.462 tCO₂ (FY 25); 0.552 (FY 24).
- Emissions per rupee of turnover: FY 25: 0.000000258; FY 24: 0.000000308.
- External assurance by KPMG.

GHG Reduction Initiatives

Tata Motors aims for a 'Water Positive' status by 2030.

- Transition to 100% renewable electricity; 76.5 MW rooftop solar capacity.
- Energy conservation projects saved 210.89 lakh kWh electricity and 48,811 GJ fuel, reducing 18,423 tCO₂e.
- Use of renewable energy sources and energy efficiency measures.

Waste Management Practices

Waste includes hazardous and non-hazardous materials.

- FY 25: Total waste: 102,601 tonnes; FY 24: 90,947 tonnes.
- Waste recovery: Recycled 78,369 tonnes in FY 25; 58,978 in FY 24.
- Waste disposal: Landfilling (24,133 tonnes FY 25), incineration, and other methods.
- Waste disposal certified by KPMG.
- Initiatives for zero waste to landfill and circular economy.

Hazardous and Toxic Chemical Reduction

Efforts to minimize hazardous chemicals in products and processes.

- Use of sludge drying beds to reduce ETP sludge.
- Eliminating paints from polymeric parts, restricting POPs, and avoiding heavy metals.
- Developing standards for material recyclability and chemical monitoring.
- Focus on sustainable materials and reducing VOC emissions.

Environmental Impact and Compliance

All operations comply with environmental laws.

- No significant non-compliance reported.
- EIAs conducted for new projects, including a recent construction project in Tamil Nadu.
- No operations near ecologically sensitive areas.

Scope 3 Emissions and Climate Impact

Scope 3 emissions include purchased goods, energy-related activities, waste, travel, and use of sold products.

- FY 25: Total Scope 3 emissions: 144.94 million tCO₂; FY 24: 164.89 million tCO₂.
- Emissions per rupee of turnover: FY 25: 0.00021; FY 24: 0.00023.
- Significant emissions from use of sold vehicles and products.
- External assurance by KPMG.

Environmental Impact and Resource Management

The report details Tata Motors' efforts in managing environmental impacts, resource efficiency, and sustainability initiatives.

- Coverage includes employee commute emissions, utility expenses, and leased shared office assets.

- Emission calculation methodology involves data from 417 dealer partners, extrapolated across the vehicle network.
- FY24 category 1 emission numbers were restated due to updated emission factors and inflation adjustments.
- Significant initiatives include biodegradable waste management, foundry waste sand recycling, and wastewater tertiary treatment.
- Waste composting at Jamshedpur plant uses bio-compost for green belt development.
- Used sand recycling reduces virgin sand consumption.
- Wastewater treatment at Pune and Jamshedpur employs membrane technology, saving approximately 1 MLD of freshwater at each plant, aiding water neutrality.

Biodiversity and Ecological Areas

Assessment of impact on sensitive ecological areas reports no significant impact.

- No direct or indirect biodiversity impacts reported.
- No prevention or remediation activities undertaken as it is marked "Not Applicable."

Business Associations and Regulatory Engagement

Tata Motors is affiliated with nine industry chambers, including national bodies like SIAM, CII, FICCI, and state-level chambers.

- Top associations have national reach, with some state-level memberships.
- The company has no ongoing issues related to anti-competitive conduct; past cases include a 2011 CCI order challenged in courts.
- Recent CCI orders in 2023 favored Tata Motors, with ongoing appeals before NCLAT.

Social Impact and Community Development

The company conducts Social Impact Assessments where applicable; none reported for current projects.

- No ongoing Rehabilitation and Resettlement projects.
- Grievance redress mechanisms are in place via CSR community feedback channels.
- Sourcing from MSMEs: FY25, 18.6% directly from MSMEs (TML), 5.2% (TMPVL/TPEML); FY24, 15.9% and 4.6% respectively.
- 99.5% (TML) and 96% (TMPVL/TPEML) sourcing from within India.
- Inclusive procurement policy prioritizes marginalized groups, with Rs 90.3 crore (0.21%) of total procurement to affirmative action suppliers.
- CSR projects benefit over 13.37 lakh persons, with 100% from vulnerable groups.
- CSR spending in aspirational districts includes significant amounts in Jharkhand, Uttar Pradesh, and other states.

Inclusive Growth and Employment

Wages are predominantly paid in urban and metropolitan areas, with FY25, 35% in urban and 65% in metropolitan locations for TML.

- TMPVL/TPEML: 0% rural/semi-urban, 0% in urban, 100% in metropolitan.
- Employment distribution aligns with population sizes, with 74% of wages paid in metropolitan areas (FY25).

Responsible Consumer Engagement

Mechanisms include multiple channels for complaints, with defined TAT and escalation processes.

- All complaints are resolved; minimal issues reported.
- 100% of products/services carry environmental, safety, and disposal information.
- Customer satisfaction surveys are regularly conducted.
- No data privacy, advertising, cyber-security, or essential service complaints reported in FY25 and FY24.
- No product recalls due to safety issues; zero voluntary or forced recalls.

Data Privacy and Cybersecurity Policies

Tata Motors maintains a comprehensive privacy policy aligned with industry standards.

- The policy is accessible online and supported by ISO-27001 certification.
- Cybersecurity governance involves a board member oversight, senior management, and a Risk Management Committee.
- No data breaches or privacy incidents reported.
- The company has a framework for cyber security and data privacy, with no reported violations or breaches.

Assurance and Reporting

An independent firm provided limited assurance on Tata Motors' sustainability disclosures for FY25.

- The assurance confirms the disclosures are prepared in accordance with global standards and SEBI regulations.
- The scope excludes commercial, technical, and future-oriented statements.
- The report emphasizes management's responsibility for data accuracy and internal controls.
- The assurance involved site visits, interviews, and document reviews across multiple facilities.
- No material misstatements or issues were identified; the report is intended for informed stakeholders.

Provide details related to waste management by the entity:

The waste generated from our operations comprises a diverse range of both hazardous and non-hazardous materials, along with scrap material. Our waste management practices are governed by the Hazardous Waste Authorization issued by the respective State Pollution Control Boards where we operate. Continuously, our operations drive initiatives aimed at eliminating, minimizing, and recycling waste in accordance with legal regulations and available opportunities. These initiatives encompass various activities, including material recovery through authorized recyclers for items such as used oil, solvents, paint sludge, and used foundry sand (reclaimed and reused). Additionally, we engage in co-processing hazardous waste as alternate fuel and raw material, including paint sludge, phosphate sludge, ETP sludge grinding waste, oily rags, and composting of food waste. Furthermore, we ensure the recycling of metal and non-metal scrap through authorized recyclers.

Furthermore, we are committed to achieving Zero Waste to Landfill across our operations by the end of the decade. We are carrying this message across our value chain to our supply chain and channel partners.

For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)

Category of waste

(i) Recycled 73,673*** 53,728***

(ii) Re-used 0

(iii) Other recovery operations 4,696 5,250

Total 78,369 58,978

For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)

Category of waste

(i) Incineration 40 40.61

(ii) Landfilling 24,133 31,527

(iii) Other disposal operations 59 401

Total 24,232 31,969

Indicate if any independent assessment / evaluation / assurance has been carried out by an external agency? If Yes, name of the external agency.

Yes, KPMG Assurance and Consulting

Services LLP has provided limited

assurance on data reported under

this indicator in voluntary BRSR

* Non-hazardous waste disposed in lots have been converted into Metric tonnes using an average conversion factor from

the generated value in FY 25 due to an improvement in tracking processes leading to a marginal increase in the waste footprint reported.

**The intensity adjusted for PPP has been restated following the guidelines set forth in SEBI's circular dated December

20, 2024, which outlines Industry Standards Forum guidance for BRSR Core. The PPP factor has been sourced from IMF

database. <https://www.imf.org/external/datamapper/PPPEX@WEO/OEMDC>.

*** Includes non-hazardous ferrous and non-ferrous metal and other scrap like packaging waste, plastic, rubber, glass

and auto components that were sold to scrap dealers and not to the primary recyclers. Recycling data has been certified

through declarations by scrap dealers who in turn sell to end-users who are secondary metallurgical industries or recyclers

that convert scrap into other products.

\$ Does not include non-hazardous waste, plastic waste and scrap disposal that were recorded in lots or numbers.

Business Responsibility & Sustainability Report (BRSR)

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by

your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices

adopted to manage such wastes.
